

HOW TO PROGRAM PROGRAMMABLE BUTTONS

1. Check With system administrator if you have permission.
2. Find out what your NFON K/account number is.
3. Log in to **YOUR** 'user portal' with: <https://ncontrol.nfon.com/en/login>

Enter:

NFON K/Account Number

YOUR Extension Number

YOUR Extension Password

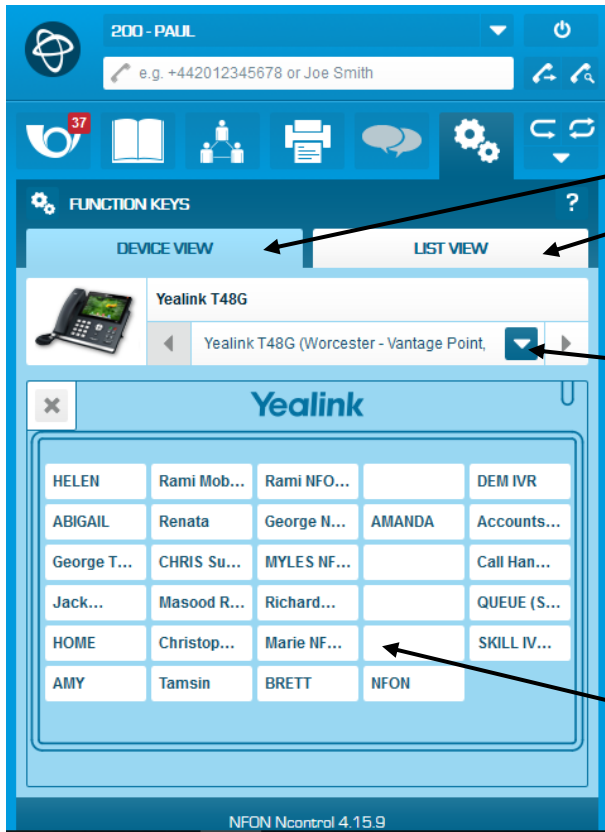

Select:

SETTINGS

Then

FUNCTION KEYS

Depending on the device and firmware level, you may get a device view or list view – or both.

Select which device from dropdown...

Select a position (or edit existing)

A pop-up will appear which gives:

Name: (as you want it to appear)

Select Type:

Speed Dial

(enter number in International format)

BLF:

(select extension from drop-down)

Intercom:

(select extension from drop-down)

Then 'ADD'

Positions of entries start with 0, then 1,2, etc.
